

Facility Update

Below are pictures of the new electronic sign located on the highway by United Supermarket. It looks great! Please go by United Supermarket and take a look at it. It is up and running, and it looks great! The first message we put up was “Muleshoe State Champions.”

We have a lot of people to say “thank you” to for helping us with this. Some of the people I think of immediately include: United Supermarkets for allowing us to use their space on the highway for this great communicate tool; Wilson Drilling for donating their rig to help us hang the sign at this location and at Dillman Elementary. We appreciate Precure Electric for wiring the sign at United Supermarket; Independent Electric for donating their truck to set the poles at both locations and for wiring the sign at Dillman Elementary; Spanky’s Welding (Colton Heinrich) for welding work at both locations; and Sam Whalin and the MISD maintenance crew for working setting up the sign, which saved the district quite a bit of money in lieu of hiring a sign company.
